NEW BANK RULES MAY HURT TRADE

New York and Chicago Banks Exact No Such Charges.

TALK OF ANTI-TRUST BANKS

St. Louis Merchants Declare the New Rules Will Be an Obstacle in the Way of Trade Expansion.

The great majority of merchants and some of the leading bankers of St. Louis outside checks and drafts deposited with the banks for collection. They claim the adoption of this rule is inimical to the business interests of the city and that a marked

The competition for country trade at present is exceedingly active and, it is claimed, that any measure which tends to hamper a free exchange of checks and drafts is sure to result disastrously to the city plac-ing it in operation. So bitter is this opnosi-tion in certain quarters that the advisability of establishing an anti-frast pank is openly broached.

of establishing an anti-trust bank is openly broached.

The interviews with bankers and merchants given below speak for themselves. Mr. S. M. Kennard, who is president of the Business Men's Leavue, and who as a merchant would natifically be expected to lead the opposition, is also compelled to face the situation in the capacity of a leading bank director. Recognizing, therefore, the delicacy of his position, Mr. Kennard, when asked his opinion, replied by saying that he had some very pronounced views of the subject, but he did not desire at present to make them public. Mr. E. C. Simmons, who is similarly situated, also declines to express his views. There are others, however, who do not hesitate to take the built by the horns and declare in emphatic ter as that the Clearing House Association has made a great blunder and unless the new rule is resemded St. Louis trade will suffer.

Such a tax is not levied on foreign paper by the banks of New York or Chicago, and they claim that there is no just reason why the merchants of St. Louis, the greatest inland mert of the country, should be compelled to submit to this petty imposition.

WHY THEY DID IT.

of the warmest advocates of the new schedule. He, was asked this morning to expound from his point of view the reasons for the change.

"It was done," he said, "not to make money, but to keep from losing money. Let me give you an illustration in point. A max deposits a \$1,000 check on some point in Mississipp at the receiving teller's window. Mississipp at the receiving teller's window. It would cost us nearly \$3 to get the money on that and then the man might buy a draft on New York for \$1,000, which would cost us \$5 cents and besides we would be losing interest for four or five days on the money, making a total of over \$4 it would cost us. The more business of that sort we do the worse off we are. The new rules merely stop that."

do not like them have the privilege of leaving."

"Would it be possible for a bank to get along without being a member of the clearing house?"

"I don't know."

"Don't you know, Mr. Bullen, that in many cities the clearing houses have decided that they had no such authority as the St. Louis association has taken unto itself and that in others, where the plan has been tried it has been found to be a failure?"

"I know that in Omaha, Kansas City, New Orleans and Denver it has been tried with great success and the clearing house has the right to make any rules it sees fit."

"Don't you think that this schedule will hurt St. Louis by driving deposits to other lities?"

"It will help the city, instead of hurting."

hurt St. Louis by driving deposits to other elities?"

"It will help the city, instead of hurting it, for the St. Louis banks by being paid all this exchange will be enabled to loan money cheaper and instead of going to New York for loans borrowers will negotiate them here. I do not really think the merchants in St. Louis are aroused over this. All of our depositors have expressed themselves as being theroughly satisfied. They see the justice of it. Talk of a new bank is nonsense, for unless it abided by the rules it could not get into the clearing house and you can see how much money it would make if it only did exchange business for nothing."

DEFENDS THE NEW RULE.
William H. Thomson, cashier of the Boatmen's Bank, member of the Clearing-house Managing Committee and defender of the charging system, says: "The banks have adopted this system because they are tired of receiving outside items for deposit without charge, of making outside collections gratis and selling Eastern exchange at par. This business has been done not only without profit, but at a large absolute loss. On an ordinary day we received 1,221 items for collection on country banks and the actual cost to us for that service was at least \$50. Three-fourths of the twenty banks in the Clearing-house Association voted for the imposition of charges, and the bank that fails to observe the rule will be expelled from the association."

to observe the rule will be expelled from the association."

WILLIAM NICHOLS OBJECTIONS. The bankers who opposed the charging system when brought up in the Clearing-house meeting are full of the subject and parade a formidable array of objections. One of these, William Nichols, President of the Commercial Bank, said: "This is a relic of forty years ago. No large city has a system of bank charges such as this. My main objection is to the iron-clad character of the cules. The banker charges a patron having only \$100. I am principally opposed to the premium charged on Eastern accounts. Then, too, the charge on items is the collection out of the city, shether the collection is made or not, will stalling to merchants. A book dealer,

TAKEN TO ROCHESTER.

The Remains of Fred Douglass Lie There in State.

ROCHESTER N. Y., Feb. 26.—Rochester is in mourning to-day for Frederick Douglass. The train bearing the remains reached the city a few minutes late, and it was 10 o'clook before the total the train pulled into Rochester there marched into the trainhouse the funeral cortege, including the Douglass League of Rochester, bearing the leagen banner draped in mourning. The Mayor, members of the Common Council and other city officials came in carriages. The honorary pall-bearers accompanied them. The party which came from Washington consisted of Mrs. Douglass, window; Lewis and Charles Douglass, sons, and Mrs. Frederick A. Sprague, daughter; Miss Estella Sprague and Hattie Sprague, grand-daughters, and Joseph Douglass, grandson of the deceased. Gen. John A. Eaton, ex-United States Commissioner of Education, and Prof. G. Hook of Washington represented Howard University, and J. S. Schell-cut represented the Ashbury Methodist Church of Washington.

The funeral party proceeded to the City Hall, where the body of Rochester's famous son lay in state for several hours. Handsome wreaths and other flowers sent by sympathetic friends from Washington lay on the coffin. A large emblem of flowers, with the words, "Love and Sympathy," had been contributed by the teachers and pupils of the Washington. A fine tribute was sent by exsenator and Mrs. Pinchback of Washington.

ICE GORGE BROKEN.

No Damage Done, and Navigation Is Being Resumed.

was gradual. The final break occurred at il o'clock Monday night. The ice began to move Sunday at Carondelet, between the bridges and above the Merchants' Bridge. On Monday the tug Reliance worked between the bridges and set in motion much of the rotten ice. Much loose, or what river men call "shore ice," also passed down. The ice gorged at Arsenal Island, however, causing a raise of five feet in the river by the backwater. But the gorge began to break at 8 p. m. and at 11 o'clock moved out. Then the river fell to four feet on the gauge.

Boats were not damaged, because the ice was rotten, and there was no up-river rise. The ice is now broken from Alton to Cairo. No damage is anticipated, even when the ice breaks above Alton and in the Missouri on account of the bridges.

Both of the ferries are running and the first steamer to make a trip will be the Cherokee of the Eagle Packet Co., which leaves on Friday for Cape Girardeau and Commerce, Mo. It is running in place of the Idlewild, which is at Paducah, Ky., and will be brought to St. Louis next week. The Anchor and Mississippi Valley lines will start boats next week.

"But couldn't you have charged for this without the clearing house interfering?"

"Yes, but "Is a great deal better to have a uniform rule."

"Was not the object of this rule to eliminate competition? Were you not afraid that if you charged for the service your customers would go where they were not charged?"

"No; it was merely thought best that all the banks should have the same rules."

"Do you think the clearing house has the right to interfere with the relations between a bank and its customers and compel it to receive money when it does not wis, to de so?"

"The clearing house does not compel any bank to do anything. It the rules of the clearing house are not agreeable those who do not like them have the privilege of leaving."

the conference, as stated by President Carson, was to arrange for the perpetuation of the 40-cent scale, or its continuation until next fall. No conclusion was reached during the forencom.

President Carson stated that the 40-cent scale was being pald in every mine in the district with the exception of those operated by the Missouri and fillinois Coal Co., whose employes are now out on a strike.

The deliberations of the conference were resumed after the noon recess with every prospect of a satisfactory, permanent arrangement for the scale.

It is said that the operators are quite as anxious as the miners to have the market price of coal held up to the current rate, which is 7 cents on the cars in St. Louis.

TOOK THE WRONG CAR. A Water Haul Made by Arizona Train Robbers.

TUCSON, Ariz., Feb. 26.—The west-bou Overland express, on the Southern Pacific, was held up at Stien's Pass last night. About six masked men appeared on the station platform, armed with six-shooters. One of them got into the engineer with guns and told them to cut off the car next to the tender; and, as soon as this was done, the engineer was ordered to proceed. After going three miles, the engine was ordered halted, when it was found that the car which had been brought along was the baggarger, the express car having been, left behind. Upon discovering this, the robbers ran away.

denied it in toto. She said that she had merely complied with the customs of the Catholic Church so far ag was necessary for any person who married a Catholic. As she and her family were Protestants, the church wedding had been omitted, and this was gratifying to all parties.

It was not true, Miss Gould said, that the Marquise De Castellane, the mother of the Count, had sent a message to the groom asking for a special dispensation for a marriage in the cathedral. Undoubtedly this would have been agreeable to her feelings, both as a Catholic and a French woman, as church marriages were customary in France. But she was perfectly satisfied with the arrangements as they stood. In fact, owing to the necessity which lay upon the Count of getting back to France before the expiration of his leave of absence from military service it had not been possible to carry out the wedding ceremony with as much regard to detail as the various parties would have liked.

much regard to detail as the various parties would have liked.

Miss Gould was positive in her assertion that she had no intention of leaving the Episcopal Church, to which she now belongs, for any other, and stated more than once that no such change of creed had ever been asked or even hinted at by the Count or his family or contemplated by herself.

In having a Catholic marriage Miss Anna Gould is simply conforming to the forms imposed by her flance's faith. At the same time Miss Gould admires the beautiful marriage service of the Roman Church.

NO CHURCH WEDDING.

The report gave rise to a story that the wedding ceremony would be performed in the Cathedral. In reply to a question if this were so, Fr. Connelly, secretary to Arch bishop Corrigan, sent word last night that he knew nothing about it. Other priests seen said that unless Miss Gould joined the seen said that unless Miss Gould joined the Catholic Church before her marriage it was impossible that the ceremony could take place in the church. An Appropriation of \$100,000 for the City Hall.

AN ORDINANCE IS APPROVED.

A Number of Important Measures for Improvements Passed On by the Board of Public Improvements.

The Board of Public Improvements approved an ordinance authorizing the re-sumption of work on the new City Hall The sum of \$100,000 is appropriated and the board is authorized to put in boilers, pipes, ducts, fans and flues necessary for a complete system of heating and ventilating the entire building and for a plumbing system in the north and the south wings; also to put in floor arches throughout the building.

President McMath of the board said the offices necessary for the soommodation of the Assessor, the Collector and the Recorder of Deeds are complete, with the exception of the necessary heating and sanitary arrangements. The plan is to get these offices removed to the new City Hall within the next six months in anticipation of the enactment of a law increasing the number of Circuit Judges of St. Louis. Mr. McMath hopes to secure \$100,000 or \$150,000 more in 1896. He hopes to see the work on the City Hall continue without intermission, even if at a slower pace than formerly. Comptroller I. H. Sturgeon was asked whether the money was available. He answered: "Yes, we can furnish the money. There will be no trouble about that."

Just before dusk last evening Council Bluft officers saw three men at the Klel Hotel who answered the description of the burglars, and Deputy Bheriffs O'Brien and Hooker and Officers Peterson and Wareplaced them under arrest. A fourth man who was with them disappeared.

When the Court-house yard was reached the prisoners drew revolvers and began shooting at the officers. Deputy Sheriff O'Brien was probably fatally wounded in the left side on the first voiley. Both deputies returned the fire and a prisoner giving the name of W. J. Smith was shot through the right groin. He will probably die also. The two other prisoners escaped running down Fifth avenue toward the river pursued by Hooker and others. There was more fring on the street and the deputy thinks he wounded one of the men. Detective Welrhappened along and captured one of the pair, who gave his name as J. B. White of Burlington, but afterward said his real name was J. J. Wilson. The man who escaped was registered at the hotel as J. Riley, Des Moines. The grips of the men contained clothing and wigs for disguises, a complete set of burglars' tools and several sticks of dynamite. Fr. Smythe of St. Xavier's Catholic Church turned over to the police a large canvas sack filled with nickels, thrown away by the men while escaping.

During the firing a motorman on the Fifth avenue electric line was slightly wounded on the bridge of the nose by a stray bullet grazing him.

PARENTS NOT DEAD.

Six months ago his wife received a letter from Fennsylvania which stated that Hartman's parents were not dead, but were still living in Germany in affluent circumstances and that instead of having been born in Pittsburg he was born in Germany and brought to this country by his uncle while a mere baby. She quietly wrote numerous letters to friends in Germany and got them interested in her behalf and caused advertisements to be inserted in all the newspapers of the German cities.

As a result of her efforts she received a letter yesterday from a law firm in Lauterbach Ober Hessen, Germany, dated Feb. 12, 1856, which stated that the firm had been hunting for John C. Hartman for the past two years, his mother having died at that time and left him property valued at about \$10,000. The letter concluded by saying that as soon as the proofs of identification were forwarded, the property would be turned over to its rightful owner.

Mrs. Hartman will at once set about furnishing all the necessary proofs and does not anticipate the least difficulty in gaining possession of the property.

Cubans Will Once More Fight for Independence.

Jose Marti Is Again at the Head of the Movement, and His Forces Have Landed on the Island.

THE REVOLT IS UNDER WAY.

Special to The Post-Dispatch.

NEW YORK, Feb. 26.—Cubs has drawn the sword once more against Spain to battle for her independence. Cipher dispatches received here yesterday by members of the Cuban revolutionary party, to whom the date set for the uprising has been known since Feb. 9, told that the revolution had

The insurgent forces in Matanzas, near
Ybarra, where one wing of the partiot party
raised its standard, are under the command
of Maj.-Gen. Julio Sanguily. The point
mentioned is about sixty-six miles east of
Havana, on the west and of the island.

The scene of the other uprising mentioned
in the Havana dispatches, Guantan mo, is
on the east end of the island, and the fact
that these widely separated places are given
prominence was accepted by Cubans in New
York last night to mean that the uprising
extended throughout the island and that the
Spanish authorities were attempting to belittle its extent.

The revolutionary forces in the castern
section of the island, which includes Guantanamo, are commanded by Brig.-Gen. Guillermo Moncada. It is estimated that he can
raise 4,000 men.

The Spanish forces number about 18,000
regulars, of which about 6,000 are stationed
in Santiago de Cuba, and are so within reach
of the rebeis at Guantanamo. The bulk of
the remaining Spanish troops are stationed
in Havana, and so are on the scene of Gen.
Sanguily's starting point. Tharra.

Men who are high in the counsels of the
Cuban sparty here, and who were intrusted
with the date set for the uprising, said last
night that with the arms which have been
smuggled into Cuba during the last few
weeks, and which were landed near Matansas and other points and those already
in possession of the patriot forces, Gen. Gomer would be able to arm 3,000 men at once
and many more within a very short time.

OTHER REVOLUTIONS.

The Several Attempts of Cubs to Achieve Her Independence.

This latest project for liberating Cuba which miscarried nearly two years ago. Early in April, 1893, it was announced that a revolutionary expedition was fitting out at Key West; the patriots who had been exiled by the Spanish Government were drilling and arming men for the invasion. Two weeks later the report of the Key West expedition was denied at New York, and it then developed that the plot for Spain's overthrow was brewing on Manhattan Island. There was no open announcement of war, but Jose Marti plainily intimated that preparations for revolt were under way, and that when plans were perfected they would go ahead. As late as November of the same year the war talk had not died out, and it was said the rebellion had already begun; but nothing came of it all. Seemingly the time for insurrection was not rine. by the Spanish Government were drilling

out, and it was said the rebellion had already begun; but nothing came of it all. Seemingly the time for insurrection was not ripe.

Other attempts to free Cuba are historical. During the month of October, 1851, a party of about 480 men, led by Narcisso Lopez, embarked on the steamer Pampero at New Orleans and set out for Cuba. On touching at Key West they were informed that a revolt had taken place in the Vuelta de Abajo, and Lopez accordingly resolved to land in that district, but by some mistake missed the point of destination and landed on the northern coast of the western department of the island on the night of Aug. 11. The shore was deserted, and at this point Lopez left Col. Crittenden with about 100 men in charge of the stores and unnecessary arms and with the remainder of his command advanced to the town of Las Pezas. The day after leaving Crittenden was attacked by the Spanish troops—two bodies of infantry and one company of horse. After struggling as long as possible against this force he withdrew from the field, and finding that neither Lopez nor any of the inhabitants came to their aid he resolved to return to America with his men. They procured small boats and had gone to sea, but were captured on the 18th by the Spanish steamer Habanero, taken to Havana, and on the 17th shot. At first it was reported they had no trial, but were immediately shot and their bodies mutilated and every possible insult shown their remains by the Cuban populace. These statements were gontradicted, however, and it was stated that they were properly tried and condemned, and their bodies mutilated and every possible insult shown their remains by the Cuban populace. morning on Sept. I, thus ending the second invasion of Cuba.

The next uprising of importance for the liberation of Cuba from Spanish rule was that known as the Yara movement. It began in 1868 and ended in 1878.

Ten long years of fighting passed before Spain succeeded in crushing the spirit of the revolutionists who survived the battles of the war and forcing the leaders to acknowledge that the revolution was defeated. Even then, although forced to lay down their arms and surrender to the conquering armies of Spain, the revolutionary leaders would not admit that Spain had beaten them.

When the Yara revolutionary movement was begun in 1868 the Cuban Junta in New York had raised more than \$2,000,000 in the United States. What inducements were held out to the many from whom money was obtained will perhaps never be known, but with it the Junta, with its headquarters constantly in the city of New York, organized expeditions for the transportation of troops, arms, artillery and ammunition to the revolutionary armies in Cuba and sent them out from the harbor of New York without molestation from the United States authorities.

A telegram from Chicago says that Capa-Porter of the United States Secret Service made up his mind that some one in the Italian quarter of that city had a hand in the business, and the building at 74 Polk street was suspected. He raided the place, but found nothing. Nevertheless, he thinks

ne will be able to solve the problem for the St. Louis officials. Speaking to a Post-Dispatch correspondent of counterfeit money, Capt. Porter said an unusual amount of fraudulent silver was being circulated just now and added that it was not strange after the long cold term. "About this time of the year," said he, "there is always a lot of bad money in circulation. The reason is that men of ingenuity and skill are thrown out of work. Just now there are some dangerous counterfeit \$2\$ silver certificates in circulation outside of Chicago, though I have seen but four here. They are the Windom bills and may be detected by the flatness of the portrait and by the coarseness of the random silk threads. All the fraudulent silver is cast and of poor workmanship."

MISS BROWNELL'S SERIOUS ILLNESS.

The many friends of Miss Jessie Brownell, sister of the late B. H. Brownell, and Capt. Frank E. Brownell will be pained to learn that her serious illness at Los Angeles has taken a critical turn.

The students deny the charge that they are in the habit of gathering in crowds in front of the college and insulting ladies. The non-appearance of the alleged complements they regard as sufficient evidence of their innocence of this charge.

for instance, may drew on a large number of subscribers. The drafts may come back uncollected and we will have to charge is cents a draft. There is no doubt the banks will live up to their agreement and in a short time the majority will see the severity of the measure. It has been tried elsewhere and falled, and it will fail here."

"Don't you think the banks will do some rate cutting as the railroads are said to do in spite of their tariff agreement?"

"Oh, we are all honest in St. Louis," and Mr. Nichols laughed, "But there are two sides to this question. For years St. Louis merchants in their fight for trade have told customers they need not pay their bills in drafts on St. Louis. Checks on their home banks would do as well. These checks are deposited in the St. Louis banks for collection and the country banks charge us is cents or more for collection. Meanwhile the country merchant has the use of his money in his home bank for four or five days after he has checked against it, or he has that much time in which to make a deposit. We should have stopped this practice long ago."

Mr. J. H. McCluney, cashier of the State Bank, said he had opposed the taxing system on the grounds specified by Mr. Nichols and Mr. Kircher.

HOW MERCHANTS LOOK AT IT.

W. E. Schweppe, President of the Schweppe Grocer Co., says: "While the order may be and probably is a just one, and while I never want anyone to do business for me for nothing, I consider it very drastic treatment for a patient, as low as we have been for some time: I think for a time at least it will hurt the jobbing trade here very much, as other cities are still taking the outside merchants' checks at par, and I look for the removal of a good many accounts to other cities. That will certainly be the case with reference to Eastern cities if our banks charge uh for our New York exchange."

E. S. Flerce, cashier of the Samuel Cuples Woodeh Ware Co., refused to talk on the subject, saying that he was willing to stand by any action the banks might take.

W. H. Lawson, cashier of the Goddard-Peck Grocer Co., says: "I consider its order just, but hard, as it is largely the banks' fault that we are placed in this position. Our house for a long time refused personal checks from country merchants and insisted upon New York Exchange, or paper that was worth par. But the banks will insist on at least 15 cents exchange on every one of them. As we receive over 100 of these checks daily our discount on this basis would be at least \$15 a day or \$4,500 a year.

would be at least \$15 a day or \$4,500 a year. This we cannot stand and shall of course have to insist on paper in payment of bills that is worth par. The order will, undoubtedly, take considerable money out of the city."

W. K. Downman of J. W. Scudder & Co., says. "The order dessays." undoubtedly, take considerable money out of the city.

W. K. Downman of J. W. Scudder & Co., says: "The order doesn't put us on a par with the jobbers in other cities and already they are out with circulars to the country merchants offering to take personal checks and stand the exchange. You can see what the result will be. We will either have to do the same or lose some of our customers. Whereas 16 or 20 cents isn't much to each of the country merchants, in the aggregate it makes a large sum for us."

W. J. Kinsella of the Hanley & Kinsella Coffee Co., takes a more Tavorable view of the case. He says: "I believe the matter will work itself out and that the result will be to make St. Louis a greater exchange center. I do not believe our customers will leave us when we ask them to send us exchange instead of their personal checks, but they will insist on the country banks keeping deposits in St. Louis. Of course, if we are forced to buy our New York exchange we shall place an account in New York, as would many others, and this would take considerable money out of the city banks."

James B. Hill, secretary of the Ely-Walker Dry Goods Co., said he was not prepared to talk on the subject, as he considered the order is to be enforced it is like building a Chinese wall round St. Louis trade."

E. C. Simmons, President of the Simmons Hardware Co., and also a director in the Boatman's Bank, refused to discuss the subject at this time. "I am, as you know," he said, "a director in the Boatman's Bank and also considerable of a jobber. I have very decided opinions upon the subject and at the proper time shall make them known, but I do not care to forestall them at present."

The Wholesale Grocers' Association will meet at 4 p. m. to discuss the new clearing-house order and decide upon some definite line of action.

COMMISSION

Favorable Report by the Senate Finance Committee.

NINE AMERICAN DELEGATES.

The Are to Meet With Foreign Repre sentatives If a Conference Is to Be Called.

WASHINGTON, D. C., Feb. 26.-The Senate Pinance Committee at its meeting to-day ordered a favorable report on the amendment to the sundry civil appropriation

met at 11 o'clock to-day. Mr. Henderson of North Carolina (Dem.), chairman of the amediately called up the conference report

committee on post-offices and post-roads, immediately called up the conference report on the post-office appropriation bill, much to the disappointment of the group of members who were clamoring for unanimous consent to consider special bills.

The amendment providing that railway mail clerks hereafter appointed should live somewhere along the line of the route to which they are assigned, but that clerks heretofore appointed should not be required to change their residence, was the only question in dispute between the two houses.

The amendment was designed to destroy the effect of general order No. 379, issued by the Postmaster General, requiring clerks to live on the line of their routes. When the order was issued, some 1,300 clerks lived off their lines. Since then 800 have changed their residence. Mr. Henderson had read a letter from the Postmaster eneral protesting against the Senate amendment. As it was evident the amendment would occasion some debate, Mr. Henderson withdrew the conference report in order to give Mr. Catchings an opportunity to present the special order giving to-day until 3 o'clock to the Committee on Fubic Buildings and Grounds. The special order was adopted without division.

They Will Be Stimulated by the Government's \$160,000 Offer. WASHINGTON, Feb. 26.-Senator Brice from the Committee on Interstate Commerce, has reported without recommendation the bill introduced in the early part of the present session, authorizing the

of the present session, authorizing the Secretary of the Treasury to pay \$100,000 to any inventor from any part of the world who shall prior to 1800 construct a vessel that will demonstrate the practicability of safely navigating the air at a speed of thirty miles an hour and be capable of carrying freight and passengers. The object of the report is apparently to print the information available on the subject of experiments at aerial navigation since the days of Montgolfier.

"To those who have not given this subject much attention," says the report, "it may seem somewhat visionary to seriously entertain the idea of navigating the air safely, since efforts in this direction have been in most instances failures," yet the committee maintains that "the eventful solution of the problem will result in one of the greatest social, economic and industrial revolutions in the history of mankind and have the greatest possible influence on the civilization of the world." Whether, they continue, "commercial results will be achieved as early as 1900 is a question your committee do not undertake to answer. It is believed, however, that the passage of the bill will act as a stimulant to the work already in progress looking to the solution of this great problem of aerial navigation, and in that respect it cannot but do great work. That the problem will eventually be solved we see no ground upon which to rest a reasonable doubt."

Finkman explained that he did not know that a refusal to testify would be in defiance of the law. He did so on the advice of outsiders. His lawyer, S. S. Bass, said that the persons who proffered this advice were "hangers-on" around the court-rooms, and who made it their business to interfere with lawyers' clients.

On Monday afternoon, it is claimed, a small scratch was found on one of the bars of Shepard's cell. This was called to the attention of the authorities as it was thought the scratch was made by a steel saw. Jail Guard Lehman states that the mark on the bar of the window is not more than surface deep and was not made with a saw. It is believed that Shepard, without any intention of cutting the bar, made the scratch with a piece of tin which was broken off the bunk in the cell.

Shepard and his cell was searched Monday evening, but no saw or tool of any kind was found. He denies having touched the bar.

LORD ROSEBERY SERIOUSLY ILL.

Suffering From a Severe Attack of Influenza.

PASSED A SLEEPLESS NIGHT.

Embargo on American Cattle in France the Result of a Newpapers

LONDON, Feb. 26.-The condition of Lord Rosebery to-day is not favorable. He passed a sleepless night and there is an in-crease of weakness. The Premier was confined to his bed on Saturday last, owing to a sharp attack of influenza, which is now epidemic throughout Loudon. The Premier's physicians say his condition is very unfavorable, but as he has a vigorous constitution and is only 42 years old, the chances are that he will soon rally from the severe attack.

Lord Rosebery, perhaps more than any other British politician, is popular among Americans. He has a wide acquanitance in this country, has traveled extensively in the United States, and has frequently expressed his sincere admiration for American institutions.

He looks like a composite photograph of Maj, McKinley and Senator Arthur Pue Gorman. He wears no beard of any kind

LORD ROSEBERY, British Premier.

LORD ROSEBERY, British Premier, and seems to be a younger man than he really is. He is medium-sized and stout, dresses plainly, wears no jewelry and has light straw-colored hair, which he parts nearly in the middle and brushes back over his ears. His head is squarely shaped and set upon a short neck.

Lord Rosebery studies men more than books, and that is one of the secrets of his popularity. He studied American institutions by mixing with the men who were right among the great currents of daily life and in close touch with the people. Lord Rosebery is accused of being a nobleman. He has explained that this is one of the accidents of birth for which he cannot properly be held accountable, but it is a high crime and misdemeanor in the eyes of many who go to make up the Liberal party. They demand that he purge himself. Lord Rosebery has been successfully purging himself for many years, until he has got to the point where he advocates the abolition of the House of Lords, of which he is a member, in order to prove his sincerity. And yet, because he is a lord, he is regarded with the eye of suspicion by Radicals, who can never forgive a man the misfortune of having a long line of ancestors. He became Prime Minister on the resignation of Mr. Gladstone, March 3, 1894.

GILLESPIE'S TRIAL.

Testimony Showing How Bernard McNutt Was Killed.

Special to The Post-Dispatch.
COLUMBIA, Mo., Feb. 26.—Testimony Thomas J. Gillespie, for the killing of Thomas J. Gillespie, for the killing of Bernard McNutt. The entire morning session was occupied in hearing experts—Drs. A. W. McAlester and Woodson Moss, who examined the victim soon after the killing spoke in regard to the wounds inflicted on McNutt. Several arteries had been shattered by the fire of the shotgun and the bronchial tubes were torn. Both testified the wounds were such as would cause death in a very few minutes. The next witnesses were S. G. Quinn and W. A. Cauthorn who were asked to testify in regard to the location of the scene of the murder. They had made surveys soon after the occurrence. The prosecution brought out the fact that it was possible to see on a straight line from the gate where the shooting was done to the spot where McNutt was killed and that a person driving in a buggy along the road toward the gate could not be seen by McNutt on account of a thick hedge and a turn in the road.

Aaron Bracken Was Poisoned and Robbed.

DALLAS, Tex., Feb. 26 .- The police of the "reservation" district this morning about 6 o'clock found Aaron Bracken of Jackson-ville, Ill., dying from the effects of mor-phine administered in some house of ill-fame in that quarter. Bracken never re-covered consciousness and died at police headquarters at 9 o'clock. His murderers had relieved him of what money and other valuables he may have had. Letters in his possession reveal his identity and also that of a brother living at India, Ellis County, Tex. He was probably en route to his broth-er's when he reached Dallas yesterday. The police have made a number of arrests, but have no positive clew to the murderers/

NEW YORK, Feb. 26.-The much-belate British steamship Salisbury, Capt. Holdorff from Catania Jan. 2, via Halifax Feb. 20 eached this port this morning after one of reached this port this morning after one of the most tempestuous voyages ever experienced in the North Atlantic. She brought 30,000 boxes of oranges and lemons to a market almost depleted. She passed Gibraitar Jan. Zi na gale which continued till Feb. 10. On Feb. 4 she was 600 miles from Sandy Hook, and almost out of coal. Storm trysales were set and carried away by the wind. Then the engines were started and the ship's head put to sea.

The main mast was cut up for fuel and all the loose wood about the ship, even bulk heads were fed to the furnace. On Feb. 12 the steamship St. Jerome from Galveston for Liverpool, came up with the Salisbury and towed her to Halfax. The Salisbury secured a supply of coal and salled on Feb. 20 for this port. The owners of the steamer St. Jerome will receive about \$15,000 for towing the Salisbury to Halifax.

MINNEAPOLIS, Minn., Feb. 26.-When the trial of the Hayward murder case was resumed to-day it was announced that County Attorney Nye could not be present, owing to a funeral in his family, and the defendant, who was still on the witness owing to a funeral in his family, and the defendant, who was still on the witness stand, was turned over to Assistant County Attorney A. H. Hall for cross-examination. Mr. Hall plunged at once into the questions of the various loans made by Hayward to Miss Ging, the aim of his questions apparently being to show that Harry Hayward had lent the dreasmaker money freely without security, and in a loose and unbusinesslike manner. Harry's connection with the loan Miss Ging made on the flour mill at Hamil, and the connection of the loan with its sudden burning, was thoroughly ventilated, and Harry was asked whether he had not driven out to Hamil with Miss Ging the morning after the fire. This he denied utterly.

This and other questions were asked for impeachment purposes, the State proposing to show on rebuttal that Harry is not telling the truth. Harry described how he had turned the lot given him by his father into cash, first by mortgages and then by disposing of the equity to Elder Stewart. The proceeds had been nearly \$10,000, and this he had partly gambled away, while the rest he had given Adry in a sealed envelope, and it was in the safe. He declared that the most money he had ever lost at one sitting was \$5,700 at the Twin City Athletic Club.

Talk Against the Whites. ATLANTA, Ga., Feb. 26.-A sensation has been caused here by a negro mass-meeting, held last night at Big Bethel, the largest colored church in the city, which was adver-tised as a memorial meeting in honor of Fred Douglass, but which was turned into an indignation meeting against the whites. As speaker followed speaker the addresses became more and more unbridled, until the affair broke out in spots with "Jim Crow" cars, "social equality" and "calls for revenge" as the texts for fiery outbursts. Proctor, the pastor of the Colored Congregational Church, was received with applause when he announced that he agreed with Douglass when he told the Southern people to beware or they would find "frebrands under their houses and poisen in their coffee."

R. M. Cheeks, pastor of the Big Bethel Church, was cheered when he told of how the North Carolina Legislature had put Douglass first, was ington second and Lee third.

Carter, the pastor of the Friendship Baptist Church, declared he would marry a white woman if he could, and said the negroes only envied Fred Douglass, because he had succeeded where they had failed. He made the hit of the evening.

Morris, a grandson-in-law of Fred Douglass, devoted most of his eulogy on Douglass to "Jim Crow" cars, and advised the negroes to carry their cases to the Supreme Court, and finally brought down the house by declaring that Fred Douglass ranked next to Christ.

Special to The Post-Dispatch.

WASHINGTON, D. C., Feb. 15.—Representative Forman has finally smoked out the reason of Senator George's opposition to the St. Louis bridge bill. Heretofore the impression has prevailed from vague statements made by the Mississippi Senator that he was fighting the bill under pressure from Vicksburg river interests, and it was not until to-day that the animus was discovered to lie in the fact that these Vicksburg interests are allied to certain street car interests which enjoy a franchise across the Eads Bridge, and are therefore antagonistic to the death to a rival bridge with possibilities of competition. cial to The Post-Dispatch.

An agreement has been made to al-low each Senator to call up a bill, and Mr. Paimer has promised to call up the bridge bill. It has not yet been determined whether unanimous consent is required or not, but this will probably be dispensed with under the rule, and in that event the friends of the measure feel confident of being able to se-cure a two-thirds majority in the Senate in favor of its passage.

BRING OUT THE FACTS.

The Missouri Legislature has seemingly made a start toward investigating the means and influences by which Sedalia secured the passage of the capital removal resolution.

The Post-Dispatch has produced facts

ifficient to warrant the General Assembly in making a thorough and fearless inquiry, and it should lose no time in beginning the work. Not as an attack upon the enterprising city of Sedalia, nor for the purpose of influencing the defeat of the amendment upon its merits, but for the sole and only purpose of ascertaining whether unlawful or improper means were employed to give Sedalia the success

It is said to be understood at Jeffersor City that the reference of the investiga tion resolution to the House Committee on Permanent Seat of Government means that it has been side-tracked and will be buried without further consideration The committee cannot afford to fulfill these predictions. The Legislature cannot afford #t. The people and city of Sedalla owe it to themselves to have every fact in connection with this matter laid

More than that, Sedalians should know that they have a great and doubtful task before them in their campaign for the adoption of the removal amendment. I will require all their powers of argument and persuasion to win, and they will be very apt to meet defeat unless they go into the fight with an official verdict that the circumstances of submission were

The circulation of the Sunday Post-Dispatch remains at the high water mark. The bona-fide circulation last Sunday was 72,028, as against 72,366 the Sunday previous, and 52,856 for the corresponding Sunday of 1894. This great increase of circulation represents genuine growth in the people's favor. The Post-Dispatch runs no lottery schemes, no prizes or premiums, no gift enterprise devices for swelling sham circulation. Its circulation is paid circulation, all free, spoiled and returned copies being deducted. The Sunday Post-Dispatch has now a larger circulation than any other Sunday paper in the Mississippi Valley, and it is growing steadily on the basis of

proven merit. BOYCOTTING AMERICAN PRODUCTS.

The report that France has joined the European league to boycott American products is confirmed by to-day's news. The French Government has issued a de cree forbidding the importation of Amercan cattle.

But despite the accumulating evidence of the damaging effect of the Sugar Trust's differential, the Senate hesitates to repeal this iniquitous feature of the new tariff law. It still permits itself to be flustrated by the small group of Senators who "held up" the country for the benefit of the Sugar Trust.

The whole burden of the discrimination of France, Germany and Belgium against American products falls upon the already depressed agricultural interests of the West and South. They are cut off from valuable markets for the most profitable form in which their products can be shipped abroad. They are twice robbed in the interest of the Sugar Trust.

Notwithstanding the odds against them -the monopoly opposition, the unmanageableness of the Senate and the hurly burly of the close of the session—the Western and Southern Senators should make a strenuous effort to repeal the differential before adjournment. They should demand it as an act of justice to their constituents.

IMPROVE THE SERVICE.

The claim of the street railway comp nies that 5-cent fares are essential to their efficiency, if not their existence, is admissible only if accompanied by 5-cent ervice

The street railroad system of St. Louis is admirable in many respects, but its managers have not kept pace with the demands of the public. They have been richly paid for all they have done.

With every improvement they have in lected more water into the capital, and the people of the city are made to pay dearly for every added facility. The road are capitalized for \$40,554,000, an amount greatly in excess of the actual investment-probably double the real capital. The investment has proved very profitable in spite of the poverty cry, for the returns come either in dividend on stock or interest on bonds. St. Louis has a great street railroad system and the people are

The companies must do more. They have steadily refused to provide fenders and other life-saving devices, and they resist the demand for transfers. These two just requirements must be fairly me without delay and others as time develop further public needs. Human life mus be better protected, and passengers car ried to all parts of the city at one 5-cent fare. These requirements are not unreas onable. In fact, they are entirely justifi able when considered in the light of the huge overcapitalization, which is

proven fact. If the companies do not comply with these popular demands they will face the alternative of a 3-cent fare. They must choose between the two.

WHEN WOMEN WILL VOTE. The expected has happened. The Mis

souri House of Representatives has re fused, by a vote of 67 to 43, to submit a voman suffrage amendment.

It is significant and explanatory that although the galleries of the House were crowded with ladies, the Representatives who spoke in opposition to the amend ment received the most and loudest ab plause. Therein lies the real cause for

he negative votes cast by the members For whenever the women of Missour make up their minds that they desire the right of suffrage they will get it. Just as on as a majority of the intelligent women in any State make known authorita tively that they desire equal power and re sponsibility with men in the affairs of vernment, their wish will be granted.

The attitude of men with respect to this question is that they are not willing to force upon women unwelcome and—as the Post-Dispatch thinks—uncongenial duties until the women make it plainly pparent that such duties are desired by

Then a suffrage amendment will be sub nitted and cheerfully adopted in any o all of the States.

AT THE THEATERS. Mr. Richard Mansfield appeared at th Hagan last night in a so-called five-act dranatization of the life of Napoleon Bons parte, and in doing so he departed in marked degree from the conventional rule

marked degree from the conventional rules of the stage. Air. Mansfield has always been a daring actor. His artistic sense has conceived ideas and then he has proceeded to carry them out regardless of what others had done before him or what the financial success of his schemes might be.

In this instance he has chosen to present not a play in which there is a well-defined plot from the life of the greatest Frenchman; he has merely, through his dramatist. Mr. Stoddard, selected five epochs in Napole leon's historic career and staged them with all the care and idelity to truth in detail that is possible from a backward glance of nearly 100 years. The five acts of Mr. Lorrimer's dramatisation are five beautiful pictures which, while the human interest is not aroused and carried along by force of dramatic action, yet serve to please and, above all, instruct.

In such a play as this the very last objection to the stage, it would seem, must be removed.

tion to the stage, it would seem, must be removed.

The curtain rises on the first act with the Emperor at Tilsit. Talleyrand and the King of Frussia are in his tent. The Emperor has not arrived. When he comes he stands in the familiar Napoleonic posture, cold and white, his eyes staring and almost glassy in their very hardness. When he speaks there is a sharp decisiveness about his words in keeping with the ideal of the man. The scene is closed with Napoleon weeping that he has no son.

Elks' Benefit.

The annual musical and literary entertainment for the benefit of the Elks' charity fund was given last night at the Germania to a spiendid house. She showed genuine talent to a surprising degree, and the interest taken in her by the late John W. Norton, of whom she was a pupil, can be understood in the light of her work last night. She was assisted in the scene by Mr. J. J. Desbergen, who was also one of Mr. Norton's pupils.

Other features of special merit were the plane sole by Miss Kathryne Butler, entitled "The Supplication;" Miss Ruth Thayer's singing, and the recital of the "Kentucky Belle," by Miss Mae Lee.

We Drink Booky Mountain Snows.
To the Editor of the Post-Dispatch:

Allow me to say a few words in regard to our water supply—the Missouri River, looked upon by many as a nasty mud hole! I propose to show why it is the purest river, water in the world. Its source is the melting of the snows in the Rocky Mountains. Then its rapid current holds in suspension a fine sand, or sediment, that sinks to the bottom all vegetable or animal matter and covers it in sandbars. A leaf from a tree will float but a few miles; a raft of logs requires old dry logs to float it—the sediment will sink it to the bottom in a day or two, it flows on to the sea at four miles an hoar; it cuts away one farm and another fills up. It will flow by St. Louis forever and man cannot control it, and when filtered it is the purest water in the world.

I cannot help calling attention to the fact that, while great complaint is being made against the Stréet Cleaning Department, the citizens of St. Louis are not setting a good example by cleaning their own sidewalks. Even in the downtown districts there are long stretches of sidewalk encrusted with all the mud of winter. There is no more excuse for this now the weather is so dealightful. Bring out your hose, your hose or scrapers, and protect your hose with rubber boots—then scrape and wash for your life. St. Louis cannot afford to be dirty and unkempt under a sun which is dispelling the gloom of winter as if by magic.

The Banks Have Had Fair Play.

To the Editor of The Post-Disgatch.

Your correspondent, "Gold Bug," makes a specious argument in behalf of the banks. He claims that the gold-bug dicker was necessary rather than a popular loan, because, while the latter might have replenished the Treasury just as well, "how would it have remained?" He also says that the syndicate which has loaned the money is under contract to keep the reserve from being eaten up. Who ever saw a more condemnatory apology than this? Who was it that was deliberately and pitliessly eating up the gold reserve? And will not the same parties do it again, indefinitely, until Government officers are elected who will compel the acceptance of silver as the law allows?

ST. LOUIS COURTS.

The Question of Additional Judges Settled by Compromise.

ial to The Post-Dispatch. JEFFERSON CITY, Mo., Feb. 26.-With the engrossment of Senator Klene's (the Bar Association) bill in the Senate yester-day afternoon, the problem of the St. Leuis Circuit and Criminal judgeships was solved. The amendment of this measure was the result of an agreement, by which the Bar Association plan is indorsed and the results aimed at by that organization assured—although the end is reached by two bills, in-stead of one. Mr. Lancaster, Mr. Klene and Mr. Spencer held a conference before the adstead of one. Mr. Lancaster, Mr. Klene and Mr. Spencer held-a conference before the adjournment on last Friday, and what they did will undoubtedly be ratified by both bodies. The Bar Association champions waive all partisan rights and consent to the appointment of three Circuit Judges and one Criminal Judge by the Governor, to serve until the general election in 1896; and the champions of the separate-court plan agree that the rotation system shall then become effective, and the Judges who preside over the Criminal trials will, after the expiration of Judges Edmunds' term, be known as Judges of the Criminal divisions of the Criminal crial will, after the expiration of Judges Edmunds' term, be known as Judges of the Criminal divisions of the Criminal criminal divisions of the Criminal criminal divisions of the Criminal Judges—unless, perchance, the Stark-Lancaster bill shall be so amended as to provide for but two additional Circuit Judges instead of three. The Bar Association adherents say that two additional Circuit Judges are sufficient for the present; but the Democrats will insist upon three. The Republicans admit that the Democrats have an advantage, in that if the appointees of the Governor shall prove acceptable, it will be all the more difficult for the Republicans to select candidates who can supplant them, and, in the meanwhile, the Democrats will be in control of both courts, whatever advantage may be gained by that fact. Except for the privilege of selecting the Jury Commissioner, no benefit is expected by the Democrats from such control. Mr. Klene said last night that the Bar Association champions had practically forced this settlement.

Republican party workers are taking a very despondent view of the capital removal question. Mr. Sailor of Carthage, a clansman of Flangan and Filley, said last night that, what with the choice of Presidential electors and a full State ticket and the capital removal issue to boot, the largest vote ever polled in the State might reasonably be expected in 1896, and he feared that the meant the raturn of the State to the full control of the Democratic party. He seemed to view this contingency as an unparalelled calamity; while at the same time he admitted that he had no regret to express concerning the removal of the capital as a measure of policy for the State as a whole. Sedallans who are now here will not promise to give the State more costly capital buildings than she now has; and all the opponents of the removal say that unless far greater inducements are offered they have no fear of its success at the polis. On the other hand, the men who brought about the passage of the removal resolution say that Sedalla will surely make a liberal offer at the

BILLS IN THE SENATE.

Proposed Change in the Management of the State University.

pecial to The Post-Dispatch. Special to The Post-Dispatch.

JEFFERSON CITY, Mo., Feb. 26.—Senator Goodykoonts to-day introduced a bill to do away with the office of President of the State University. It provides for the establishment of each professor as the absolute head of his own department, the entire number of professors to constitute the faculty and elect a chairman from their own number, also a visiting committee of alumni to exercise general supervision.

Senator Lyman introduced a bill regulating grain warehouses and placing them on the same footing as other warehouses and subject to lien. Also a bill to abolish tapemachine gambling.

The engrossment of the House bill cutting off the extra per diem of \$5 of the members of the Board of Equalization, which was accomplished Saturday while the Republicans were in control of the Senate, was reconsidered by a strict party vote and was referred to the Ways and Means Committee. Senator Williams was the only Republican voting for the recommittee to report the bill within two days. Lyman intimated that this resolution was an insult to the committee and moved that the resolution be also referred to it. The resolution was left without a roll-call. All copies of the substitute have, the substitute fellow-servant bill for Senate Bills \$1 and 185 was engrossed without a roll-call. All copies of the substitute have, the substitute have. JEFFERSON CITY, Mo., Feb. 26.-Senato

The substitute fellow-servant bill for Senate Bills 81 and 185 was engrossed without a roll-call. All copies of the substitute have disappeared from the committee-rooms, but the substitute is declared valueless by Senators Baskett, Kennish and Yeater, who have championed a genuine fellow-servant law. The measure is based upon the Arkansas Isw, and is said to have been drawn by John H. Carroll, attorney of the Burlington Rallroad. It defines "a fellow-servant," but establishes no liability. Mr. Lyman's bill, 286, permitting all class of corporations to consolidate and intended to make possible the consolidation of street rallroads in St. Louis and Kansas City was called up for engrossment.

Pending engrossment. He Senate took a recess until 2 p. m. The bill will probably be defeated. It is the third of a series by the same Senator for the same purpose, the first, No. 263, providing for capitalization up to 550,000,000, and the second for unlimited interchange of franchises, rights and stock-voting privileges. None of the St. Louis Senators would introduce the measure.

SPRINGFIELD, Ill., Feb. 26.-Represent ative Kent has introduced an anti-option bill to prevent gambling in grain, beef, pork,

bill to prevent gambling in grain, beef, pork, lard or other provisions by corporations, brokers or others.

The woman suffrage bill comes up in the Senate to-day. This is Senator Coon's bill allowing women to vote at township elections. It was defeated once and now comes up on a motion to reconsider. Its friends think it now has a good chance of getting through. The woman suffrage lobby has been hard at work during the last few days. The Senate bill making an appropriation for the rebuilding of the burned portions of the Anna Insame Hospital will come up on second reading in the House.

BUTTE, Mont., Fab. 26.-The bill prohibiting sambling in the State requires only the signature of the Governor to make it the signature of the Governor to make it a law. Since Butte was a hole in the ground, faro, poker and other games have been allowed to run with open doors day and night, on the ground floors and the in formation that they are to be shut out altogether has fallen like a bomb among those who are conducting them. The 400 gamblers are wild over the passage of the bill and threaten to get even with some one.

INDIANAPOLIS, Ind., Feb. 26.—The spe Indianatolals, ind., Feb. 2.—The special committee appointed to investigate Representative Andraw Jackson's charge that the Liquor League had placed a barrol of whisky in the State House basement to influence votes against the Nicholson bill have made a report, declaring the charge groundless and censuring Jackson for introducing such a slanderous measure.

ducing such a slanderous measure.

LITTLE ROCK, Ark., Feb. 26.—Twenty-three bills were introduced in the General Assembly yesterday though adjournment is only fifteen days distant.

In his message sent to the General Assembly Gov. Clarke set forth that the General Government acquired by purchase in 1838 various trust fund bonds amounting to \$780,000, with accrued interest, according to the statement of the Auditor, amounting to \$2,671,603. As against this Arkanbas had undisputed credits amounting to \$38,231,13. The Governor thinks, however, that all the claims have been more than extinguished by the failure of the General Government to patent to the State the swamp grant.

TOPEKA, Kas., Feb. 28.—The Senate ha assed the irrigation bill providing for a tate Commissioner with \$30,000 to conduct experiments in the western part of the State.

LONG DROUTH BROKEN.

Will Relieve Suffering.

OMAHA, Neb., Feb. 26.—General rains fell in Nebraska last night breaking a drouth of a year's duration in some instances. A special from McCook, Neb., says: "The long drouth was broken here yesterday by a good rain, commencing about 10 a. m., and continuing all day. It is still raining and bids fair to continue all night."

At Venango, Neb., it has been raining steadily for ten hours, the first rain of any consequence in over two years.

At York a light rain continued during the night. This will be an immense advantage to Nebraska grops.

Special dispatches from Southwestern Nebraska give news of a great rain there. Trenton, Hitchcock County, reports the heaviest rainfall in eighteen months. This is in the heart of the drouth district and this rain has encouraged the settlers there.

Chicago's Offer to Farmers.

OMAHA, Neb., Feb. 28.—A special letter from Tekamah says: A meeting was called at the town hall at noon yesterday for the purpose of considering a proposition purporting to come from the Chicago Board of Trade relative to furnishing the destitute farmers of the county with seed grain. So far as learned the proposed terms are that the farmers are to give their notes for such grain as is needed, the validity and payment of the same being conditioned upon production of a crop the coming season. The sentiment of the meeting favored the idea. It is understood the Chicago Board of Trade will duplicate this proposition in a number of counters.

VIRTUES OF AUTI-TOXINE.

Case of Diphtheria in Which It Proved

H. Walker reports a case which is a strong argument in favor of anti-toxine in the treatment of diphtheria. He was called on Tuesday last to see Annie May Carman, aged 5 years, who had been suffering with diphtheria for five days, her mother reported. The temperature was 104, and the pulse 140, respiration badly impeded, and the patient able to speak only in a smothered whisper. He applied the usual remedies without avail until 2:30 a, m. Wednesday, when some anti-toxine for which he had sent to Wheeling arrived. Then he injected 15 centigrammes of it. In an hour the temperature had fallen 1 degree. Twelve hours after the first injection the temperature was 99 1-5, pulse 92, almost regular, and voice considerably improved. In 45 hours the membrane began to loosen, and she coughed up large pieces of it. On the fourth day the pulse was normal, temperature normal, false membrane gone, and but slight swelling of the glands. Other conditions improved nicely, and the patient is now almost entirely well. treatment of diphtheria. He was called on

DEFICIENT IN STUDIES.

Seventeen Naval Cadets Asked for Their

ANNAPOLIS, Md., Feb. 26.-All the cadets have sent in their resignations to the Secretary of the Navy, except Dennett of the first class, who is endeavoring to hold over until May. Seventeen naval cadets received written notice from Supt. Cooper of the Navai Academy yesterday, asking for their resignations. The notice said the cadets named were deficient in their studies at the semi-annual examination held the first part of the month, and that it was impossible for them to make up the deficiency before the annual annual examination held the first part of the month, and that it was impossible for them to make up the deficiency before the annual examination in May. The following is the list of cadets who were asked to resign: First class—G. H. Mann, S. P. Dennett, W. B. Isard. Third class—E. O. Sykes, Jr., S. H. Mc-Mullen, N. J. Shelton, J. T. Ward, H. T.

WHAT DR. YONGLING THINKS.

He Says Catholics Are Trying to Get

BALTIMORE, Md., Feb. 26.-At yester day's meeting of the Ministerial Union a resolution drawn up by Rev. Dr. Julius E. Grammer of the Protestant Episcopal Church, and offered by Rev. Dr. J. Vance, Presbyterian, was adopted, protesting against any and all attempts to influence the School Board or the public schools in the interest of any ecclesiastical body, and also against the appointment of persons engaged in the liquor traftic on the city school commission, as detrimental to public morals and injurious to the school system. In speaking on the resolution Dr. J. M. Yong-ling said it was generally known that the Roman Catholics were trying to get control of the public schools.

Young Johnson and a friend, Harry Wilson, were out sailing on St. John's River recently when a squall hit them suddenly and over they went. They hung on to the boat and shouted for help. A man on the docks heard their cries and went to their rescue in a row boat. They were dragged ashore very much exhausted, but the letter to the Governor states that no ill results have followed.

ONE MILLION PRESBYTERIANS.

Assembly Reports Place the Membership at These Figures. PITTSBURG, Pa., Feb. 26.—Three Pres-

byterian assemblies are to meet in this city in May—the Presbyterian General Assem-bly, United Presbyterian General As-sembly and the Cumberland Presbyterian General Assembly. This will be the first time in their history that they have all mit in the same place at the same time. Re-ports now being prepared for the Presby-terian Assembly show that the church membership aggregates about 1,000,000 peo-ple.

FACTS FOR OUR READERS.

Follow Nature and Keep Well. a Good Rule.

Copious Rains in Nebraska Which | The Question Is Important, Are You Prepared for Spring?

If Not, Here Is Some Very Necessary Information for You. Nature will soon begin her annual struggle for freedom from winter's kcy imprison ment. Already beneath the frozen surface,

giant forces are moving in that direction. urification is going on. It is the same with the human system, The lengthening days are approaching when the blood seeks to recover from its sluggish inactivity, and it bears in its course germs of health or disease, as it has stored up the one or the other. It requires therefore to be enriched with vitalizing and

health giving qualities to give tone, vigor

and health to the system. For this needed and beneficial service nothing is so powerful as Dr. Greene's Nervura blood and nerve remedy. Like Nature's own wondrous remedies in the physical world, which purify the mountains and streams as they leap from their confines to fill the valleys with new life, and

fines to fill the valleys with new life, and cover orchard and field with flower and fruit, it brings new force and health to wasted fissues and enfeebled nerves.

Now is the time when your nature calls for help. Don't mistake; no other remedy equals Dr. Greene's Nervura blood and nerve remedy will so quickly and certainly strengthen your nerves, invigorate your blood, and correct the action of all your organs. It will make you well and strong as it has done thousands of persons; as it did Mrs. W. A. Cutler, of 59 Orchard St., Worcester, Mass.

"A year ago," she says, "I fell ill with nervous prostration and neuralgia, which affected my whole system. My digestion was also very poor. After eating I would be taken with a smothering sensation, while the palpitation of the heart was terrible.

what all the doctors and their medicines could not do. I wish to urge all sufferers

No power of words can describe the wonderful good which this remedy is doing among the sick and suffering. Those who take it are cured. Thousands of people, at the advent of spring, while not exactly sick, are yet out of order or alling in some way. They do not feel just right, are not well and strong, cannot eat or sleep well, are nervous, and have no strength or ambition for work or pleasure. Their stomach, bowels, liver or kidneys are inactive and torpid. Such people need this best of all spring medicines. the nerves, and new life and vitality to the blood.

Why lose time in trying uncertain and untried remedies, when here is a physician's prescription, a discovery made by the greatest living specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th st., New York City. If you take this medicine, you can consider yourself under Dr. Greene's direct professional care, and you can consult him or write to him about your case, freely and without charge. This is a guarantee that this medicine will cure, possessed by no other medicine in the world.

WILL DEPRESS TRADE.

Effect of the French Decree Against American Cattle.

CHICAO, Ill., Feb. 26.-Speaking of the ued by the French Government prohibiting the importation of Ameri-

ment prohibiting the importation of American cattle, Nelson Morris, the well-known packer, said:

"We shipped \$18,000,000 worth of cattle and products to France alone last year and this great trade is absolutely destroyed by the order of the French Government. I knew this was coming some months ago, and with the exception of two or three boat loads not any cattle or any product has been sent to France in the last ten days.

"The effect of the German and Belgian embargos has been to reduce the price of cattle of the classes shipped to those countries by \$10 a head, and this French edict will even more injuriously affect the stock-yards. This has been the effect on vrices notwithstanding the fact that the supply of cattle has been cut down to two-thirds on account of lack of feed.

"The effect on the product is even greater than the effect on the live cattle trade, especially as far as France is concerned. We were shipping 7,000 cattle a week and as many or more in addition in the form of the product. France has been taking a great deal of lean cattle for soups, and this class will be very injuriously affected by the new edict, while as to dressed beef and pork and products, the result will be even more far reaching."

SEARCHING FOR THE POISO NER. Detectives on the Lockout for the Slayer

Detectives on the Lookout for the Slayer of the Serin Dogs.

NEW YORK, Feb. 26.—Central office detectives and officers of the Society for the Prevention of Crueity to Animals are actively engaged in an effort to capture the miscreants or miscreant who on Friday morning last put poison in the cages of eight little prize dogs at Madison Square Garden. The dogs belonged to Mr. and Mrs. Ferdinand Senn, of this city. "A subscription of the popular kind was started," said Mr. Senn, "but I ordered it stopped, as it was too much for my pride, and furthermore, I do not know but that I would be receiving the contribution of the person or persons who killed the dogs. I have been informed that the Westminster Kennel Club will in due time reimburse me in whole or in part for my loss. It is a maiter that rests entirely with them. If they fail to do so, it will result in no ill-feeling on my part, nor in my taking legal action to compel such restitution by them. My sole desire is to see the guilty persons caught and punished."

At the rooms of the Society for the Prevention of Crueity to Animals it was said that no arrests had been made yet.

Attorney Duggan's Tearful Appeal to Mr. Zachritz.

Attorney Andrew Duggan, counsel for the condemned murderers, Heinze and Kalser, made a pathetic appeal to Circuit Attorney Zachritz this morning for the original statement which Catherine Chapman made to the police two days after the murder. Mr. Duggan, with tears streaming down his cheeks and in a voice trembling with emotion said:

Duggan, with tears streaming down his cheeks and in a voice trembling with emotion, said:

"Gov. Stone is now depending wholly upon the testimony in the case, and by all that is just and holy. I can prove by this statement that her version of the tragedy was obtained to a great extent from the story told by the negress, Annie Boghines. Without doubt, the Chapman woman was present when the murder occurred, and I have information to the effect that when first questioned by the police she could only describe one of the men. This one, she said, ran by her, and on her description of him Charles McDonald was arrested. She failed to identify Kaiser and Heinze when they were brought before her.

"I claim that the Boghines woman was used as a decay for the other witnesses. She was brought into the detectives' room, where all the other witnesses were assembled, and there related several incidents which she claimed to have seen in conection with the murder and which impressed her hearers as the truth. When they came to testify they fell in line with her story."

In answer to this appeal Mr. Zachritz replied that he would do all he could to find the original statement made by the Chapman woman.

"From information I have received," he

the original statement made by the Chap-man woman.

"From information I have "eccived," he continued, "I doubt very much the correct-ness of your statement, but I will find the document, if possible, and if I fail, I will make an affidavit to that effect." Mr. Zachritz says he has evidence to prove be-yond question that Heinze and Kaiser killed Brown, but he will not reveal it until after the execution.

James M. Magill swore out a warrant on Monday against E. L. Squire of 5i3 Security Building, charging him with obtaining property under false pretenses. Magill charges that Squire offered to pay him \$640 for \$864 worth of second-deed-of-trust notes on some property held by his wife; and, when he had secured the notes, gave Magill \$140 and a \$500 bond of the Burlington Heights Syndicate. When Magill demanded the money or the notes, he says, Squire refused to give them up. Squire has left for Boston, and, therefore, the warrant could not be served upon him.

CATCHER TWINBHAM HERE. The Browns' Backston Comes Down From Galesburg.

Arthur Twineham, who will assist Henry Peitz behind the bat for the Browns this Monday and will make St. Louis his home in the future. He has been taking good care of himself this winter and weighs 178 pounds. He will take five pounds off before the season commences. Before he engaged Manager Buckenberger President Von der Ahe appointed Twineham capital and manager of the Browns. Twineham realizes that the engagement of Buckenberger lets him out of both jobs, unless "Buck" should reappoint him to the captaincy of the club. While he was in charge of the team Twineham signed a young pitcher named McDougal in Iowa, and he thinks the newcomer will prove a valuable addition to the Browns' pitching corps. McDougal has a great minor league reputation. He and Mason will have a fast pace set for them by Breitenstein. Ehret and Clarkson. The Browns will report here March 1. Manager Buckenberger received Denny Lyons' signed contract at. Pittsburg Monday. President Von der Ahe met him there the same day. Monday and will make St. Louis his home

At the meeting of the Rules Committee of the National League in New York yesterday it was recommended that no players but the pitcher and first baseman be allowed to use the big mitt and that coaching be restricted to the base runner. It was also recommended that any size bat that is round be allowed and that a foul tip caught within the ten-foot line be called a strike.

Many changes in wording were also THE WHEEL.

Plans for the Season Will Be Made To-Night.

The leaders of cycling in St. Louis will ather at the South Side Club this evening o plan the fixtures for the coming season The general plan as outlined in Sunday's Post-Dispatch will be followed with perhaps

a few additional features.

The season will be an unusually lively one and the fixtures will be held under the auspices of the Associated Cycling Clubs.
The officers of the association have invited the dealers and club captains to meet with them in an advisory capacity to-night.

them in an advisory capacity to-night.

The American racing contingent now in Mexico are having a grand and glorious old time, being received everywhere with marked attention, while the race meets held are patronized by large crowds and the riding is heralded with storms of applause while the band plays bull-fighter music after every race. The outcome of the racing so far has been evenly divided, and times made not overly surprising. Several of the racing men drank too freely of a native drink callet "Toquila" and became somewhat merry, semerry, indeed, that they got in trouble and had more trouble to be released from durance vile. The party are now in the City of Mexico, but have not as yet raced.

FRANK WILL RIDE FOR RICE.

The Latter Will Rely on His String of Two-Year-Olds, as Chimes and Prancis Pope Are Stale.

Jockey Frank Jordan and his brother Dethink they have the speedlest 2-year-old yet shown hereabouts. The youngster is a bay solt by Storey, dam Western Belle. At the East St. Louis track Monday he took up in pounds and worked three-eighths of a mis in 139%. This move is thought to be exceptionally fast, considering the weight the colt packed and the additional fact that the heavy sandy going at East St. Louis wears abors down rapidly and is several seconds. Frank Jordan rode the colt in this trial and was agreeably surprised at the fine showing made by it. He thinks the colt is sure to prove a good one. De breadwinner. Sullivan, is by Storey, the sire of the colt. The same day the Jordan's colt made the good time at the East St. Louis track, Snow East, William is a magnificant looking raceborse. His forte lies in sprinting, and whom he is good it takes the best of the speedy ones to move reports among the older horses.

Jockey Jordan came-back from New Orleans accompanied by Jockey Charley McDonald. While in the Crescent City Jordan fride for his stable this season, and will go to work for him at Memphis. Capt. Rice ownstall, with Hinkey in the saddle, worked his province of the speed of the s
